

Tuesday 4th November, 2014.

Dear Parents,

As part of our Design and Technology work this year we will be holding a DT day next Thursday 13th November, 2014.

Our theme is Musical Instruments and we will be trying to create a variety of tuned and untuned instruments from junk materials.

To help with this exciting project, please can you start to collect and clean any junk materials that we can use? Great materials include: Plastic and glass bottles, jars and tubs, cardboard tubes and bottle tops. Please send these into school as soon as possible so we can see what we have to work with. Talk to your child and see what they might like to create...

Also, we would welcome as much help as possible on our DT day - the children will have planned their instrument before hand, but we will need help with drills, hot glue guns, hammers, saws etc for it to be really successful.

Please return the slip at the bottom (and there really IS a slip this time - not like the cinema trip) to let us know if you are able to come and help on the day. We will be needing helpers in the morning from 10-12.15 (making) or in the afternoon from 1.20 - 3.15 (decorating and tidying up)

Thanks in advance for all your help and support,

Vicky Hassall and Carly Schwarz
Year 4 Teachers.
