

Friends Together Across The Miles

Written by

Woodfall Primary School - UK
St James RC Primary School, - South Africa
Neston High School - UK
Bergvliet High School - South Africa

Bergvliet High School

Do do do do ba da..... do da do da do do
This is the place where our cultures meet
More than just a school - makes our family complete
Holding our future in the palm of her hand
Helping us to sculpt and build a united land

*And we are
Friends together across the miles
Friends together sharing smiles
Working together
So our earth may last forever
Learn from each other
Reach out to one another
We are far across ocean and land
And yet so close at hand
And yet so close at hand*

Woodfall Primary School

Life gives us choices each and every day
Choose how we work and choose how we play
Our school's built on teamwork, it's a school for the brave
We have to stand as one, for our future to save.

*And we are
Friends together across the miles
Friends together sharing smiles
Working together
So our earth may last forever
Learn from each other
Reach out to one another
We are far across ocean and land
And yet so close at hand
And yet so close at hand*

Neston High School School

Let's share the joy and sing out loud
We're now united, we're cool and we're proud
Nothing so good as new friends on distant shores
A big happy family, what's mine will always be yours

St James RC Primary School

So let's just plan for the day when we meet our friends
United with an eco dream that knows no end
One golden aim, one thing we want to know
Is how to make our world live on to a brighter new tomorrow
A brighter brand new day

*And we are
Friends together across the
miles
Friends together sharing
smiles*

*Working together
So our earth may last forever
Learn from each other
Reach out to one another*

*We are far across ocean and
land
And yet so close at hand*

**And yet so close
at haaaaaand**

And yet so close at hand

*And we are friends.....
We're friends across the miles
And we're sharing smiles*

*Working together
So our earth may last forever
Learn from each other
Reach out to one
another(shhh!)*

*Across ocean and land and
Yet we are so close, we are so
cloooooose,
And we are friends together
across the miles
And yet so close at hand*
